

Our primary mission is to empower future leaders of Timor-Leste.

We are committed to long-term development. We support Timorese people as they identify the needs and challenges within their own communities and pursue solutions that are locally led, sustainable and shaped by their own talents, vision and goals.

The Timor Children's Foundation partners with local leaders and communities to strengthen skills, encourage leadership and build capacity for the future.

Through tertiary scholarships, pastoral training and community health initiatives, including dental care, we promote self-determination and enduring community growth.
